

## **To All Sherwood Lakes/Sherwood Isles Residents**

Your Board of Directors has partnered with Flock Safety, a national neighborhood security provider that specializes in community safety through the use of license plate reading cameras. License plates are the #1 piece of evidence that police request in the case of criminal activity such as home and car break-ins.

Flock Safety cameras are entirely self-sufficient, solar powered and send camera footage via mobile technology to a secure cloud-base network unique to Sherwood Lakes/Sherwood Isles. The cameras have both day and night capacity to record license plates that pass through our community.

Privacy is a top concern of your Board of Directors. The footage and data that is collected is automatically deleted after 30 days. However, the data is always accessible after the 30 day deletion by members of the Board or by law enforcement.

Despite the technology of the Flock Security System, the best #1 way to deter crime is to lock all doors including vehicles and keep valuables out of sight.

We are fortunate to live in a safe neighborhood, but we believe the Flock Security System will further deter crime and provide a valuable resource to our residents.

If you are a victim of a crime, please report first to the police department and then send an email to our community manager explaining the situation.

Your HOA and Flock Safety are not law enforcement agencies and are not in a position to undertake law enforcement activities. Any illegal action should be reported to law enforcement immediately.

Let's all continue to make Sherwood Lakes & Sherwood Isles a safe place to live.

Your Board of Directors
